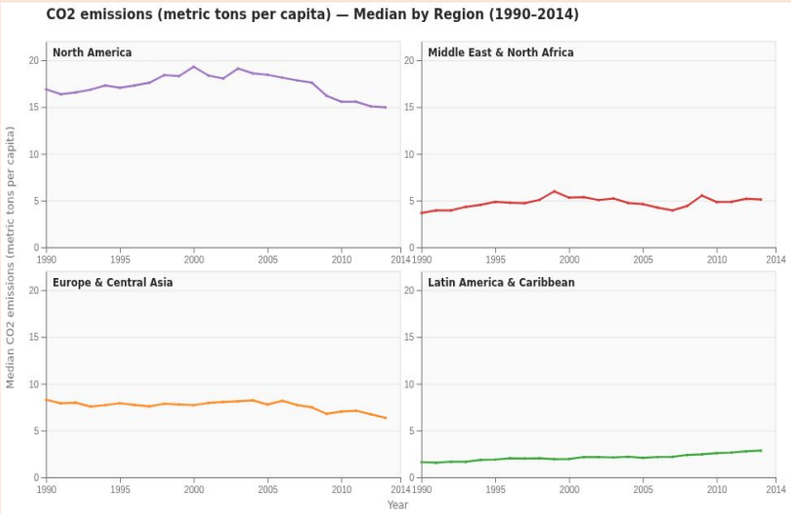
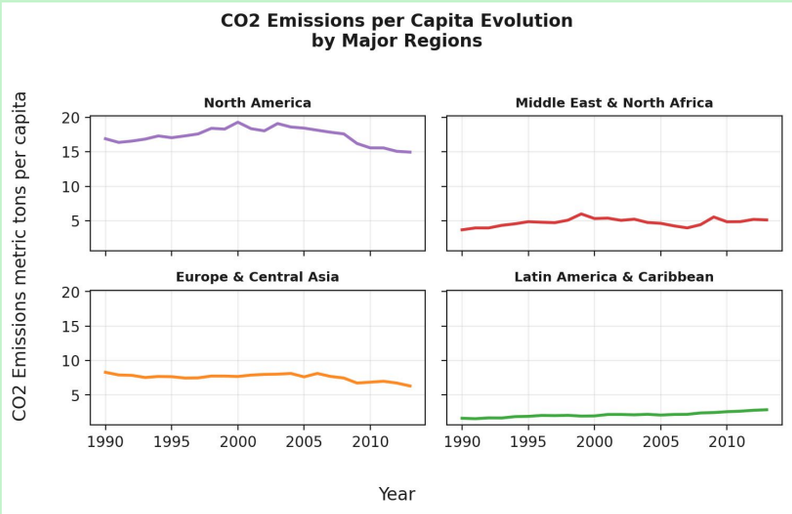
DV-Evol Good Case——d3.js

Question:
- Aggregation: mean → median CO2 per capita for each Region×Year (1990–2014), ignore NaNs.
- Chart: stacked area → faceted line chart (1 panel per Region), fixed colors:
  NA #9467bd, MENA #d62728, ECA #ff7f0e, LAC #2ca02c.
- Preserve: exact Region names, full 1990–2014 range, line marks only.

GPT-5.2:



Ground Truth:



Successfully completed:
- Chart type change: from a stacked area chart to a 2×2 faceted line chart.
- Correct faceting: one panel per Region (North America / Middle East & North Africa / Europe & Central Asia / Latin America & Caribbean).
- Correct color mapping:
  - North America = purple
  - Middle East & North Africa = red
  - Europe & Central Asia = orange
  - Latin America & Caribbean = green
- Line marks only: no area fill / stacking effects remain.
- Consistent time span: x-axis still covers 1990–2014.
- Median aggregation reflected: the title and y-axis labeling explicitly indicate "Median".

Percentage Of Score: 68.75%
