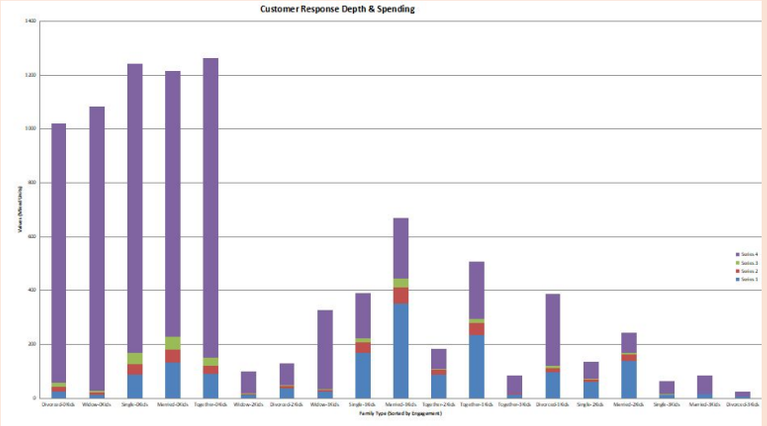
DV-Sheet:Fix-Bad Case

Error Category:

★ Integrity and Consequence Errors

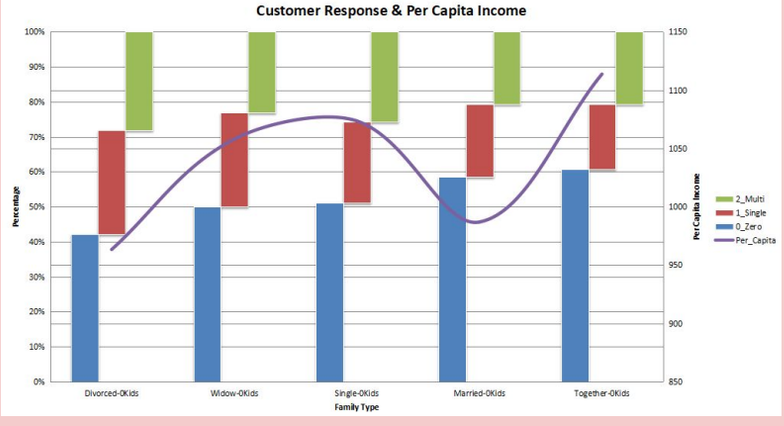
Question:
Convert this to a Combo Chart: plot 'Number of Families' (Zero, Single, Multi) as a 100% Stacked Column, and 'Per Capita Income' as a Line. Also, correct the legend labels to match the columns.

Primary Chart:



Ground Truth:

Gemini-3-pro:



Error Analysis:

★ **Source Reference Damage:**

Severe data truncation. The model only plotted the first 5 rows ("0Kids"), completely discarding the rest of the dataset (1-3 Kids).

Percentage Of Score: 0%
